### SECTION 1: Identification of the substance/mixture and of the company/undertaking

#### 1.1. Product identifier

- **Product form**: Mixture
- **Product name**: PEAK Global Lifetime Concentrate Antifreeze and Coolant

#### 1.2. Relevant identified uses of the substance or mixture and uses advised against

- **Use of the substance/mixture**: Antifreeze & Coolant

#### 1.3. Details of the supplier of the safety data sheet

- **Old World Industries, LLC**
- 4065 Commercial Ave.
- Northbrook, IL 60062 - USA
- T (847) 559-2000
- www.oldworldind.com

#### 1.4. Emergency telephone number

- **Emergency number**: (800) 424-9300; (703) 527 3887 (International)
  - Chemtrec

### SECTION 2: Hazards identification

#### 2.1. Classification of the substance or mixture

- **GHS-US classification**
  - Acute toxicity (oral), Category 4: H302
  - Specific target organ toxicity — Repeated exposure, Category 2: H373
- **Full text of H statements**: see section 16

#### 2.2. Label elements

- **GHS-US labelling**
  - Hazard pictograms (GHS-US): ![GHS07](image) ![GHS08](image)
  - Signal word (GHS-US): Warning
  - Hazard statements (GHS-US): H302 - Harmful if swallowed
  - H373 - May cause damage to organs (kidneys) through prolonged or repeated exposure (oral)
  - Precautionary statements (GHS-US):
    - P201 - Obtain special instructions before use
    - P202 - Do not handle until all safety precautions have been read and understood
    - P260 - Do not breathe mist, spray, vapors
    - P264 - Wash affected areas thoroughly after handling
    - P270 - Do not eat, drink or smoke when using this product
    - P280 - Wear personal protective equipment as required
    - P301+P310 - If swallowed: Immediately call doctor/physician or poison center
    - P301+P330+P331 - If swallowed: rinse mouth. Do NOT induce vomiting
    - P304+P340 - If inhaled: Remove person to fresh air and keep comfortable for breathing
    - P308+P313 - If exposed or concerned: Get medical advice/attention
    - P405 - Store locked up
    - P501 - Dispose of contents/container to appropriate waste disposal facility, in accordance with local/regional/national/international regulations

#### 2.3. Other hazards

- No additional information available

#### 2.4. Unknown acute toxicity (GHS US)

- No data available

SECTION 4: First aid measures

4.1. Description of first aid measures

First-aid measures general
- Never give anything by mouth to an unconscious person. If you feel unwell, seek medical advice (show the label where possible).

First-aid measures after inhalation
- If breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. If you feel unwell, seek medical advice.

First-aid measures after skin contact
- Remove contaminated clothing. Wash with plenty of soap and water. Wash contaminated clothing before reuse. If skin irritation occurs: Rinse immediately with plenty of water (for at least 15 minutes), Get medical advice/attention.

First-aid measures after eye contact
- Remove contact lenses, if present and easy to do. Continue rinsing. Rinse immediately with plenty of water for 15 minutes, lifting lower and upper lids. If eye irritation persists: Get medical advice and attention.

First-aid measures after ingestion
- Obtain emergency medical attention. Rinse mouth. If the person is fully conscious, make him/her drink two glasses of water. Never give an unconscious person anything to drink. Do NOT induce vomiting. Call a POISON CENTER/doctor/physician if you feel unwell. If medical advice is delayed, and if the person has swallowed a moderate volume of material (a few ounces), then give three to four ounces of hard liquor, such as whiskey. For children, give proportionally less liquor, according to weight.

4.2. Most important symptoms and effects, both acute and delayed

- Symptoms/injuries: Causes damage to organs (kidneys) Oral.
- Symptoms/injuries after skin contact: Causes skin irritation.
- Symptoms/injuries after eye contact: Causes serious eye damage.
- Symptoms/injuries after ingestion: Swallowing a small quantity of this material will result in serious health hazard. The lethal dose in humans is estimated to be 100 mL (3 oz).

4.3. Indication of any immediate medical attention and special treatment needed

A more effective intravenous antidote for physician uses is 4-methylpyrazole, a potent inhibitor of alcohol dehydrogenases, which effectively blocks the formation of toxic metabolites of ethylene glycol. It has been used to decrease the metabolic consequences of ethylene glycol poisoning before metabolic acidosis coma, seizures, and renal failure have occurred.

SECTION 5: Firefighting measures

5.1. Extinguishing media

- Unsuitable extinguishing media: Do not use a heavy water stream. May spread fire.

5.2. Special hazards arising from the substance or mixture

- Fire hazard: During a fire, smoke may contain the original material in addition to combustion products of varying composition which may be toxic and/or irritating. Combustion products may include and are not limited to: Carbon monoxide. Carbon dioxide.
- Reactivity: No dangerous reactions known under normal conditions of use.

5.3. Advice for firefighters

- Firefighting instructions: Use water spray or fog for cooling exposed containers. Exercise caution when fighting any chemical fire. Prevent fire fighting water from entering the environment.
- Protection during firefighting: Do not enter fire area without proper protective equipment, including respiratory protection.
- Special protective equipment for fire fighters: Wear positive pressure self-contained breathing apparatus (SCBA). Protective fire fighting clothing (includes fire-fighting helmet, coat, pants, boots and gloves).
SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

6.1.1. For non-emergency personnel
Emergency procedures: Evacuate unnecessary personnel.

6.1.2. For emergency responders
Protective equipment: Equip cleanup crew with proper protection. Refer to section 8.2.
Emergency procedures: Ventilate area.

6.2. Environmental precautions
Prevent entry to sewers and public waters. Notify authorities if liquid enters sewers or public waters.

6.3. Methods and material for containment and cleaning up
Methods for cleaning up: Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possible. Collect spillage. Small quantities of liquid spill: take up in non-combustible absorbent material and shovel into container for disposal. Store away from other materials.

6.4. Reference to other sections
For further information refer to section 13. For further information refer to section 8: “Exposure controls/personal protection”.

SECTION 7: Handling and storage

7.1. Precautions for safe handling
Precautions for safe handling: Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Provide good ventilation in process area to prevent formation of vapor.
Hygiene measures: Do not eat, drink or smoke when using this product. Wash affected areas thoroughly after handling.

7.2. Conditions for safe storage, including any incompatibilities
Storage conditions: Keep only in the original container in a cool, well ventilated place away from heat sources. Keep container closed when not in use. Product may become solid at temperatures below -18 ºC (0 ºF). Do not store near food, foodstuffs, drugs or potable water supplies. Do not cut, drill, weld, use a blowtorch on, etc. containers even when empty.
Incompatible products: Keep away from strong acids, strong bases and oxidizing agents.
Incompatible materials: Sources of ignition.

7.3. Specific end use(s)
No additional information available

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

<table>
<thead>
<tr>
<th></th>
<th>ACGIH TWA (mg/m³)</th>
</tr>
</thead>
<tbody>
<tr>
<td>ethylene glycol (107-21-1)</td>
<td>10 mg/m³</td>
</tr>
</tbody>
</table>

8.2. Exposure controls

Personal protective equipment: Avoid all unnecessary exposure. Gloves. Safety glasses.

Hand protection: Wear protective gloves.
Eye protection: Chemical goggles or safety glasses.
Respiratory protection: Respiratory protection not required in normal conditions. If exposed to levels above exposure limits wear appropriate respiratory protection.
Other information: Do not eat, drink or smoke during use.
SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Physical state: Liquid
Color: amber
Odor: Mild
Odor threshold: No data available
pH 50% water solution: 8
Relative evaporation rate (butylacetate=1): Nil
Freezing point: -18 °C (0 ºF)
Boiling point: 158 °C (317 ºF)
Flash point: 116 °C (241 ºF) [100% Ethylene Glycol] ASTM D56
Auto-ignition temperature: 400 °C (752 ºF) [100% Ethylene Glycol] Literature
Decomposition temperature: No data available
Flammability (solid, gas): No data available
Vapor pressure: < 0.1 @ 20 ºC
Relative vapor density at 20 ºC: No data available
Specific Gravity: 1.12
Density: 1.12 kg/l (9.34 lbs/gal)
Solubility: Water: Complete
Log Pow: No data available
Log Kow: No data available
Viscosity, kinematic: No data available
Viscosity, dynamic: No data available
Explosive properties: No data available
Oxidizing properties: No data available
Explosive limits: 3.2 - 15.3 vol %

9.2. Other information

VOC content: 0 %

SECTION 10: Stability and reactivity

10.1. Reactivity
No dangerous reactions known under normal conditions of use.

10.2. Chemical stability
Stable.

10.3. Possibility of hazardous reactions
Hazardous polymerization will not occur.

10.4. Conditions to avoid
Extremely high or low temperatures. Keep away from any flames or sparking source.

10.5. Incompatible materials
Keep away from strong acids, strong bases and oxidizing agents.

10.6. Hazardous decomposition products

SECTION 11: Toxicological information

11.1. Information on toxicological effects

Acute toxicity: Oral: Harmful if swallowed.

\textbf{denatonium benzoate (3734-33-6)}

Skin corrosion/irritation: Not classified

Serious eye damage/irritation: Not classified

Respiratory or skin sensitisation: Not classified

Germ cell mutagenicity: Not classified

Carcinogenicity: Not classified

Reproductive toxicity: Not classified

Specific target organ toxicity (single exposure): Not classified

Specific target organ toxicity (repeated exposure): May cause damage to organs (kidneys) through prolonged or repeated exposure (oral).

Aspiration hazard: Not classified

Potential adverse human health effects and symptoms: Based on available data, the classification criteria are not met.

Symptoms/injuries after skin contact: Causes skin irritation.

Symptoms/injuries after eye contact: Causes serious eye damage.

Symptoms/injuries after ingestion: Swallowing a small quantity of this material will result in serious health hazard. The lethal dose in humans is estimated to be 100 mL (3 oz).

12.5. Other adverse effects

Effect on ozone layer | No known effect on the ozone layer |
Effect on global warming | No known effects from this product. |
Other information | Avoid release to the environment. |

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Waste disposal recommendations | Dispose of contents/container to appropriate waste disposal facility, in accordance with local/regional/national/international regulations. |
Ecology - waste materials | Avoid release to the environment. |

SECTION 14: Transport information

Department of Transportation (DOT)

In accordance with DOT

Transport document description | UN3082 Environmentally hazardous substances, liquid, n.o.s., 9, III |
UN-No.(DOT) | UN3082 |
Proper Shipping Name (DOT) | Environmentally hazardous substances, liquid, n.o.s. |
Class (DOT) | 9 - Class 9 - Miscellaneous hazardous material 49 CFR 173.140 |
PEAK Global Lifetime Concentrate Antifreeze and Coolant

SECTION 15: Regulatory information

15.1. US Federal regulations

PEAK Global Lifetime Concentrate Antifreeze and Coolant

- **EPA TSCA Regulatory Flag**
  - Toxic Substances Control Act (TSCA): The intentional ingredients of this product are listed

- **denatonium benzoate (3734-33-6)**
  - Listed on the United States TSCA (Toxic Substances Control Act) inventory

- **ethylene glycol (107-21-1)**
  - Listed on the United States TSCA (Toxic Substances Control Act) inventory
  - Subject to reporting requirements of United States SARA Section 313

- **EPA TSCA Regulatory Flag**
  - T - T - indicates a substance that is the subject of a Section 4 test rule under TSCA

- **CERCLA RQ**
  - 5000 lb(s)

- **SARA Section 311/312 Hazard Classes**
  - Immediate (acute) health hazard
  - Delayed (chronic) health hazard
  - Ethylene glycol is subject to Tier I and/or Tier II annual inventory reporting

- **SARA Section 313 - Emission Reporting**
  - Ethylene glycol is subject to Form R Reporting requirements.

- **diethylene glycol (111-46-6)**
  - Listed on the United States TSCA (Toxic Substances Control Act) inventory
