

The 30 GPM DEF Bulk Transfer System is constructed from heavy-duty polypropylene; it has been meticulously-engineered to transfer DEF via a stainless steel self-priming pump and 120V single phase motor. Compatible with all major diesel exhaust fluid dispensers.

## TECHNICAL DATA

### Pump & Motor

Stainless steel self-priming pump  
120V Motor single phase motor  
25' Electrical cord with 15 Amp plug

### Meter & Register

Positive displacement meter  
Mechanical register  
Mechanical printer  
Air eliminator  
Weights & Measures approved

### Hose Assembly

1" x 10' suction hose w/SS MNPT ends  
1" x 20' discharge hose w/SS MNPT ends  
Hose hangers for both suction and discharge lengths

### 2-Wheel Dolly

Pump Protectors  
Meter guard  
Filter guard  
Stainless steel fitting tray  
Pneumatic tires

**Dimensions LxWxH (inch): 24" x 24" x 50"**
