**DESCRIPTION**

FULL FORCE® Conventional Green Antifreeze + Coolant is a low-silicate formulation for use in older cars and light to medium duty truck applications, as well as heavy duty diesel engines with the use of supplemental coolant additives (SCAs). With a complete cooling system flush and fill, it will provide rust and corrosion protection to all cooling system metals for up to 2 years/50,000 miles*, and is compatible with all other conventional low-silicate formulations.

**FEATURES & BENEFITS**

- Maximum freeze-up protection to -84°F boilover protection to +276°F
- Provides year-round protection against damaging rust and corrosion
- Compatible with all conventional green antifreeze
- Meets or exceeds ASTM D3306, D4985 and D6210 specifications

**APPLICATIONS**

FULL FORCE Conventional Green Antifreeze + Coolant is designed for use in older passenger cars, light/medium and heavy duty trucks including:
- Chrysler: All Pre-2000
- Ford: All Pre-2002
- GM: All Pre-1995

Also recommended for use where the following are cited:
- ASTM D3306
- ASTM D4985
- ASTM D6210 after addition of SCA

---

*Protects all cooling system metals for up to 2 years/50,000 miles when a complete cooling system flush and fill is performed, and proper cooling system maintenance is followed. Always follow vehicle owner’s manual for top off requirements, change intervals and specified maintenance. See peakauto.com/peak-info/warranty for more details.

**FREEZE/BOIL PROTECTION CHART**
