PROFESSIONAL AUTO CARE PRODUCTS

Blue Mountain Professional™ Dexron® – III AUTOMATIC TRANSMISSION FLUID is recommended for use in automatic transmissions of General Motors, Ford (except those that specify Ford M2C33-F Type F fluids) and other U.S. and import vehicles requiring DEXRON III, DEXRON IIE, DEXRON II and MERCON ATF. It may also be used in Allison automatic transmissions, including those that require C-4 fluids, and Caterpillar transmissions requiring TO-2 performance.

- Helps provide smooth shift performance where DEXRON III or a MERCON fluid is specified
- Extended fluid life
- Designed to provide outstanding high temperature oxidation resistance
- Offers excellent protection against corrosion, wear and rust
- Compatible with automatic transmission components such as elastomer seals and plastic parts
- Resistant against sludge and deposit formation

Viscosity recommendations vary according to temperature and engine manufacturer.
